

Kolloquium Epidemiologie und Biostatistik

Use of routine data for clinical research – Part I: Data Sources

Donnerstag 4. Juli 2024 | 16:00 bis 17:00 h | N55 SR 310/11

Dr. Layla Riemann – Institut für Angewandte Medizininformatik, UKE

Dr. Jan Gewehr – Forschungs-IT, UKE

Sources of routine data I: from patient records to the UKE Data Hotel

Donnerstag 11. Juli 2024 | 16:00 bis 17:00 h | N45 SR 4

**Prof. Dr. Enno Swart – Institut für Sozialmedizin und
Gesundheitssystemforschung, Otto von Guericke Universität
Magdeburg**

Sources of routine data II: from insurance claims to analysable datasets

Patient data documented for patient care and administration is becoming increasingly accessible to researchers. In our seminar series, we explore the challenges and opportunities this routine data holds. In this first part, we will answer what information can be made accessible for research use and which strengths and pitfalls have to be expected in its use.
