- You are free to decide which items you use. There are 16 modules, each of which covers one dimension of patient-centeredness with four items. You do not have to use all items. However, if you choose a module, we recommend that you use all the items in that module.
- The instruction on the following page is a sample instruction. You are free to adapt it.
- The term “outpatient clinic” may be freely adapted (e.g. replaced by the term “practice”).
- You are free to change the formatting as you wish.

Should you wish to adapt the EPAT beyond this, please contact Prof. Dr Isabelle Scholl at i.scholl@uke.de
